The University of Minnesota was in for its scientific department. The legis-lature decided that the state treasury could not spare the amount required at present, and rejected its demand. Thereupon su old and wealthy citizen of St. Paul, ex Governor Pilisbury, came for-ward and generously offered \$150,000 as a free gift to the university. This is one of those actions that will "smell sweet and blossom in the dust." As a man of large wealth, Governor Pillsbury might have amused himself by putting this sum in an "oat" or "lard deal," but he has chosen the nobler part of doing something for his fellow men and the future that will be of enduring

The state university of Wisconsin needs a gymnasium and armory. It asked \$65,000 from the legislature for ployed in the seed-room of his departthe purpose. The legislature thought the state could not afford that amount at present, and denied the request. would be pleasant to hear that some Wisconsin millionaire, whose money has come largely from the field here opened to his talents, had followed Governor Pillsbury's example and offered to provide the university with the ing eleven colored men in all on the means to construct this important addi- rolls. tion to its appliances. The Gazette is glad that the Milwaukee Sentinel has done so gracious a thing as to suggest in so pleasant alway, how some of Milwaukee millionaires can make themselves useful, and it is hoped that all of them will read the article with profit to the cause of philanthropy. Minnesota has her Pillsbury, Indiana her De Pauw, Illinois her McCormick, and Michigan has her stitutions, and why can't Wisconsin produce some good soul with plenty of money and lots to spare, who is willing to give a few thousand for the public good? Washburn did something handsome for LaCrosse, and Layton's benefection will long be remembered by the citizens of Milwaukee, but is there no one to honor himself and serve the state by some gift as princely and as service able as the millionaires of other states?

THE LAST SHALL BE FIRST For these who do not wish to farm

farmers understand that-a trip to Oklahoma six months from now, after the first crop is gathered, will show them at their leisure just what there is in it. 'Getting there first" will count for nothing except a fight over a chance to put a mortgage on 160 acres of land. It is the people who "get there finally" who will do most of the thriving that is to be done in Oklahoma. - St, Louis Republic.

There is a big sermon in that para graph from the Republic. It is the experience of many hundreds in the new states and territories that those who rush into a new district first do not realize the most profit. The men who go to a new country after the excitement has died out, who have an opportunity to soberly and carefully look the field over and discreetly make investments, are the ones that are first in

The men that made the most money in Dakota were not the ones who joined in the rush of '80 and '81. It were those who went later, who saw the first or the second crop, who had a chance to learn values, and who gathered up the acres at | ing it. a discount when the rushers got fired of their bargain. The same may be said of the settlement of Kansas and Nebraska. It now looks as though the people who go later to Oklohoma will be the ones who will do the most in the way of thriy from Admiral Kimberly, at Apia. Samoa:

There is comething exceedingly sad in the manner in which Dr. W. F. Wilson, of Denver, met his death on' Friday night. He was regarded as one of the

Phillips Brooks is catching it for having come out against prohibition. paper. The Rev. J. Howard Smith, in the Amerdment newspaper, tells him that he is in the company of publicans and sinners, and that his utterances are applauded in the antechambers of hell. This sounds very much like the prohibition campaign arguments heard in Michigan and Tennessee over two years ago. But what communication has J. Howard Smith with the lower region? He seems to have a friend down there:

"Good! very good! -the appointment | will put into a nearer port, possibly Bosof Marvelle W. Cooper to be appraiser of customs. He is honest, he is capable; he is faithful to the constitution; he is a gentleman; and the man who knows him well is lucky." This is the way a leading democratic paper of New York speak of Republican Cooper. Verily that paper is not far from the kingdom'.

Richardson employs 3,000 people in the manufacture of Irish linen, no liquor has been sold for forty years and as a result there is neither pomoney out of a farm is to get it out of liceman, prison pawnshop nor pauper in the farmer—and most people who are not the town. This illustrates a very important fact, that liquor is largely responsible for crime and pauperism.

PHILADELPHIA, Pa., April 22.—The ship Missouri, which is now known to have 340 of the Danmark's passengers on board, has been watched for here for several days past, she being due about seven days ago, and the hope that she would know some thing of the Danmark has been realized. A TOWN ABLAZE.

West Depere, Wis., Narrowly Escapes Entire Destruction by Fire. MILWAUKEE, Wis., April 22 .- The little

city of West Depere, five miles southwest of Green Bay, on Saturday suffered from a disastrous fire, which came very near destroying the entire city. Nothing but the shifting of the wind saved it. As it was, the immense plant of the Meiswinkle woodenware company was destroyed and twelve dwelling houses were reduced to ashes. The total loss will be about \$300,000. The fire started at 4 o'clock Saturday afternoon, and raged from that time until early Sunday morning. The fire started in the yards of the Meiswinkle company. The nearest engine was about half a mile distant, and the wind was blowing a gale. By the time the engine arrived on the scene thousands of cords of slabs were ablaze. Assistance was summoned from Green Bay and an engine arrived at 6 o'clock. The fire had gained great now almost a hurricane, was was away from the big factory buildings flames over the firemen. The Depere engine was disabled, but the Green Bay company made a determined stand. They were finally compelled to retreat, taking with them their engine, which had also become disabled and worthless. The flames now had it all their own way, and they soon reached the factory. Five hundred cords of kiln-dried wood were ignited at once, and the next instant the factory building, the barns, stock sheds, and cooper shops were all ablaze. It looked as if nothing could save the city, and the in-habitants began to load their household effects and prepare for flight. Many did get their goods out and carted them to places of safety. Another engine had arrived from Green Bay in the meantime,

For two hours the flames raged unchecked and unfought. Twelve frame houses were wiped out as if they had been so many boxes of matches.. But the wind suddenly and without abating shifted to the northeast. That saved the town. A panic was created about this time by the discovery of new fire in the middle of "wooden row." It was quickly put out, and investigation showed it to have been incendiary. Papers satuated with kerosene had been ignited in a closet. The flames were got under control shortly the wind changed and drove them back over the burned ground. The Meiswinkle plant was totally destroyed, the damage being \$200,000, with an insurance of \$70,000. The rest of the damage, counting Meis-winkle's stock in the yards, amounts to

Marion and Buckbee, Wis., in Imminent Danger of Destruction. MILWAUKEE, Wis., April 22.—The inhabitants of Marion and Buckbee, two little towns in the northwestern portion of Waupaca county, have been passing through a fiery ordeal. Nothing but pure grit and hard work saved Marion from being completely wiped out. For some time forest fires have raged in the vicinity these two towns, but it was not until Saturday that the situation became serious. A strong wind coming up Saturday after-noon, the flames in the forest began to spread with inconceivable rapidity. In a very short space of time a bank of solid fire nearly a half-mile wide was tearing its way through the timber. The roar of the flames and the crashing of the heavy trees could be heard several miles. Before this flery blast seven farm-houses went down

cinders and ashes. The farmer and their familes escaped in every instance and nearly all the stock was saved, although some cattle and swine perished. In the afternoon, about 3:80 o'clock, a freight train on the Milwankee, Lake Shore & Western road was ditched owing to the spreading of the rails cause by the intense heat and burning ties. The engineer, James Kraun of Manitowoc, was terribly injured about the head and shoulders. Eight freight cars loaded with lumber were ditched and afterward burned. The remainder of the train which remained on the track was hauled back out of danger by a train which was following.

The loss from the accident will be heave.

Saturday evening there was great excitement in Marion, and an old-fashioned pioneer fight was made against the flames. At 7:20 o'clock the town was entirely surrounded by fire, and the danger both to the town and its inhabitants was very great. All the stores were closed, and the residences were deserted by all save the sick and the toddling children. Women and girls and even children helped the men and boys to carry water, and after a de-termined and plucky fight, which lasted far into the night, the town was saved. All the afternoon the flames were roaring and crackling in the woods north and west of the town, and there is still a ruddy glow in the sky, forming a half-circle around the

A VICTIM OF WITCHCRAFT.

Drowned While Trying to Work a Charm for Consumption. MILWAUKEE, Wis., April 22.-Strange and weird incidents led up to and surrounded the death of John Englehardt, an old man, who was drowned in the river above the dam Saturday afternoon. Englehardt was a German pioneer of Milwaukee, a man of means and well-known several years ago. In 1830 Englehardt's wife was stricken with rheumatism and doctors were patient trials of all the regular schools medicine, Englehardt sold a large block of property to the Best Brewing company and started in to investigate Christian science. faith cures, and all matter of latter-day healing twitchcraft. He spent much time and money journeying over the country trying to find something that would cure his wife. After a vain search he returned to Milwaukee, where he has been for the

It was there decided that nothing would save the old man but a charm. The charm was to go to the banks of a running stream, there to cast pebbles in the water and recite an in cantation. The old man was very weak but Saturday afternoon he was carried or to a carriage by his son Gustav and a friend of the family. The trio were then driven out to the river, which above the dam is a clear and running stream. Once out there the weak old man was carried down the embankment and propped up near the shallow water. It was specified that the charm would be useless if any one was present while he worked it, so the son and the friend left him. After a wait of fifteen minutes they returned. The old man was nowhere in sight. While 'ooki g up and down the shore water. They looked closer and saw it was the sick old man. They hastily jumped in, for the water was hardly three feet deep, and dragged him out. It was too late; the charm had worked and Englehardt was cured. He was stone dead. The son and the friend carried their dripping burden back and put it in the carriage. Then they drove back home through the city, the dead man sitting between the two live ones. An inquest will probably not be held.

The son thinks that his father was so weak that he toppled over and fell into the river. Old Mrs. Englehardt still has the rheumatism and her faith in charms is not

ENTERING OKLAHOMA.

THOUSANDS CROSSING INTO

Stirring Scenes of the Last Day ard Night Before Opening-Settlers to Be Disarmed.

Purcell, I. T., April 22.—Thousands, of boomers are pouring into Purcell today. The situation assumed a threatening der. This caused hundreds to leave for. Oklahoma, who declared their intention to enter Sunday night and stay on the land at all hazards. On the trains Sunday came a number of Texas desperadoes, and their appearance in the city has caused many of the better class to band themselves together for self-protection. A meeting for this purpose was held and some five hundred joined. The following circulars were ordered printed and are posted

"Fair warning. Late order made at late meeting Oklahoma Legion: "Resolved, That we again pledge ourselves to protect our brother members in their long respected rights on selected claims, and that all town-site sharks and claim jumpers will be dealt with in a sum-The placard has caused the outsiders to

also band together, but in smaller numbers, and there are but few who are leaving alone for Oklahoma to take claims. The chances for the man's entering the territory alone and holding a good claim are considered very slim. Dave Hunt, a Texan, and one of the league, said that the posted placard meant business; that while they should attempt to avoid trouble, still they would protect their rights in every way, and that a claim jumper would be shown no mercy. All of the members are well armed and go to the Territory in a body. Sunday was Sabbath in name only in Purcell, gambling houses bieng run wide open and the stores doing a rushing business. Streets were thronged with horses and horsemen, and auction sales of horses were held every twenty feet. Ponies that can make even fair time brought fabulous figures. Twenty running horses were brought here by residents of Purcell who desired to get claims directly across the Canadian, and as many more will be used by the Purcell International Improvement company, who are after the same lands. The company and citizens are working against each other, and the probable outfactions admit this, and go prepared for the worst. A number of patrols but one train run out of Purcell Monday, and that leaves at 11:30 and enters Okla-homa at exactly 12 o'clock. There are who chance it on horses than ride through on the train. Sunday night boomers left Purcell in crowds and crossed the Canadian into the Territory. There were a hundred officers on the other side, and many were forced to return. Thousands of people living along the banks of the Canadian, and even those wno had come to enter the Territory legally became disgusted and crossed into Oklahoma. Every possible means are used to ford the river. Horses were ridden across and a few small rowboats have been The officers are the only people on the opposite side and are vigilant in guarding the river, but their number is inadequate. Many boomers made a break into the lines and into the bushes and some escaped. A mounted patrol scoured the Territory adjacent to the river, and brought a number of the men to the Purcell side. Some of the boomers have crossed the river three and four times, only to be arrested and returned. A few of these latter left for a week, when they will re-Sunday was a wild night in Purcell. Cowboys and boomers rode through the

streets with revolvers, and threatened every person should attempt to stop them when they decided to cross. The gambling business was entirely deserted, and every inhabitant of Purcell was on the street and joining in the general hurrah. An officer who has just returned from the Oklahoma side reports

that five boomers were wounded and one killed in a fight between boomers and officers on that side. The boomers ran into the brush and relied upon the darkness to avoid arrest. An Indian scout discovered them, and when they were found by the officers they showed fight, with the above result. The remainder of the crowd ran after the first volley and went deeper into the timber. Scouts are still after THE LAST CONTINGENT.

All Aboard at Kansas City-Pick-

pockets' Shrewd Game. KANSAS CITY, Mo., April 22.-Sunday night being the last chance for persons bound for Oklahoma to leave in time to reach the country by noon Monday, the union depot was thronged with as motley a crowd as was ever assembled in it. The Santa Fe, in addition to its two regular trains (which were jammed), sent out a special of eleven coaches which represented nearly every line entering the city. The

Rock Island also sent out an immense train. Innumerable cases of pocketpicking have occurred during the week, both in the depot and on trains. It is ascertained that three or four sharpers have been working a very smooth game. They would board an Oklahoma train, gain the confidence of a carload of boomers, and finally propose the organization of a col-ony. The sharpers would produce their pocketbooks and suggest a common fund and the actual settlers would follow suit. The common fund idea invariably failed of consummation, however, but the pickpockets improved the opportunity by noting the size of each man's purse and its place of concealment. The sharpers would ride out a hundred miles or more and by that time would have succeeded in reaping their harvest. No arrests have been made yet.

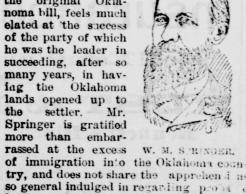

TOPEKA, Kan., April 22.—Agent Sebastian of the Rock Island road has sent the following telegram to the road's headquarters at Chicago: Territory in crossing streams. All reports

"There is no trouble whatever in the to the contrary are false. Teams and wagons have crossed within the last twentyfour hours. All reports in conflict with the above have been manufactured for the purpose of diverting traffic. Give this as much publicity as possible."

containing over 7,000,000 acres, would also be opened for settlement, while that part of the Seminole and Creek purchase west of the 98th meridian and north of the Canadian river, containing about 2,000,000 acres, would also be opened at an early day. All that is require ! in the case of the last-mentioned lands is an order from the Secretary of the Interior removing the Arapahoes and Cheyennes north of the Canadian to the south side of the river. Mr. Springer said he had great faith in the capacity of American citizens to govern themselves and had no doubt that a government would be established adequate to the wants of the people and which would furnish complete protection to persons and property until Congress meets, when, he believed, a bill organizing the Territory of Oklahoma would be passed without delay.

Mr. Springer said he hoped that within

Riot in Minneapolis Which Results in Again Tying Up the Street Cars. MINNEAPOLIS, Minn., April 22.—The first serious disturbance which has occurred in Minneapolis since the general tie-up of the car lines, a week and a half ago, took place Sunday at Twelfth and Washington avenues south. Two cars were thrown off the tracks, stones, bricks, bottles, and other missiles were used, and twenty-eight men

were arrested. Cars were run out as usual Sunday or all the lines which have been operated for the last two days. No attempt had been made as yet to start the Riverside avenue cars. This line runs through a portion of the city largely populated by workingmen and they were not working Sunday. The tearing up of a portion of the track during Saturday night presaged trouble. Riverside cars were started early, and the crowds soon began to gather. About 11 o'clock, as two cars going in opposite directions approached each other at Twelfth and Washington avenues south, stones and bottles were thrown from a saloon. This started the fun and soon about five hundred people had gathered. The two cars were thrown over and badly wrecked. The scab drivers were stoned. The police were summoned and they, too, were stoned. Some persons received severe hurts, but were hustled out of the way by their friends. The police were called from all the other lines of the city and the mob was finally dispersed. Owing to the withdrawal of all the officers from the other

lines all street cars in the city were A Woman to Be Hanged. DR. TALMAGE'S SERMON. EASTER AROMATICS" FROM THE TABERNACLE PULPIT.

he Resurrection of Christ and the Lesson It Teaches-The Coming Resurredtion of the World's Dead-Angelic Muisc Will Furnish the Power.

BROOKLYN, N. Y., April 22.—A vast multitude attended the Easter services at the Brooklyn Tabernacle Sunday morning. The pews, the aisles, and all the adjoining cooms were thronged, and multitudes in the street could not gain an entrance. The Rev. T. DeWitt Talmage, D. D., preached on the subject. "Aromatics for Faster "The pulpit and galleries of the church had elaborate floral decorations. The congregation sang the opening hymn: "We praise thee, O God, for the son of thy

For Jesus who died and is now gone above." Dr. Talmage took two texts-Luke, xxiv., 1: "Bringing the spices which they have prepared;" I. Corinthians, xv., 52: "The trumpet shall sound." He said: Enchanting work have I before me this Easter morning, for, imitating these women of the text, who brought aromatics to the mausoleum of Christ, I am going to enroll frankincense, and balm, and attar of roses, and cardamon from the East Indies, and odors from Arabia, and when we can inha'e no more of the perfume then we will take of sweet sounds and hear from the music that shall wake the dead. Having on other Ea sters described the whole scene I need only in four or five sentences say: Christ was lying flat on his back, lifeless, amid sculptured rocks, rocks over him, rocks under him, and a door of rocks all bounded by the flowers and fountains of Joseph's country seat. Then a bright immortal, having descended from heaven, quick and flashing as a falling meteor, picks ip the door of the rock and puts it aside as though it were a chair and sits on it. Then Christ unwraps himself of his mortuary apparel, and takes the turban from his head and folds it up deliberately and lays it down in one place, and then puts the shroud in another place, and comes out and finds that the soldiers who had been on guard are lying around, pallid and in a dead swoon, their swords bent and useless. The illustrious prisoner of the tomb is discharged and 500 people see him [at ence. An especial congress of ecclesiastics called pay a bribe to the resuscitated soldiers to say that there (was no reserection and that while they were overcome of slumber the

were overcome of slumber the Christians had played resurrectionists and stolen the corpse. The Marys are at the tomb with aromatics. Why did not these women of the text bring thorns and nettles, for these would mere thoroughly have expressed the piercing sorrows of themselves and their Lord? Why did they not bring some national en-gn, such as that of the Roman eagle, pical of conquest? No, they bring aroties, suggestive to me of the fact that I up helm, unfurled sail, and made for the gospel is to sweeten and deodorize the gallery and scud under bare poles to the ta tion and maloder that Christ is going o roll over it waves of frankincense and prinkle it all over with sweet-smelling errh. Thousands of years before this Solomon had said that Christ was a hlv. ges, Allays and Isaiah had declared that under the pel the desert would bloom like the e, but the world was slow to take the al hint. And so now the women of the

redolence and perhaps unwittingly confirm

and emphasize the lesson of deodorization.

When Christ's gospel has conquered the earth the last offense to the factories will have left the world; sweet, pure air will have blown through every home, and churches-will be freed from the curses of ill-ventilation, and the world will become two great gardens, the empurpled and emblazoned and emparadised hemisphere. Sin is a buzzard, holiness is a dove. Sin is night-shade, holiness is a flower. If you are trying to reform the world open the windows of that tenement house and pour through it a draft of God's pure atmosphere, and set a geranium or a heliotrope on the window-sill; cleanse the air and you will help cleanse the soul. How dare this world so often insult that feature of the human face which God has made the most prominent feature of the human physiognomy? To prove how He himself loves millions of flowers on prairies and on mountain fastnesses the fragrance of which

no human being ever breathes, and He must have grown them there for His own regalement. And for the compliment the world paid Christ by giving Him sepulcher in Joseph's garden He will yet make the whole earth a garden. Yes, He expressed his delight with fragrance in the first book of the Bible, when He said, "The Lord smelled a sweet savor;" and He filled the air of the ancient tabernacle and temple with sweet incense; and there are small bottles of perfume in heaven described in Revelation as golden vials full of odors. preach an ambrosial gospel which will yet extirpate from the world all foulness and the angel of resurrection, and while druggis rancidity and the last noisomeness and the last mephitic gas. Glad am I that, though the world had chiefly spikes for the Savior's feet and thorns for the Savior's brow, the magi put frankincense upon His cradle and

the Marys brought frankincense for his Notice also that Christ's mausoleum was opened by concussion. It was a great earthquake that put its twisted key into the involved and labyrinthine lock of that tomb. Concussion! That is the power that opens all the tombs that are opened at all. Tomb of soul and tomb of nations. Concussion between England and the thirteen colonies, and forth comes free Government in America. Concussion between France and Germany, and forth comes Republicanism in France. Concussion among the rocks on Mount Sinai, and on two of them was left a perfect law for all ages. Concussion among the rocks around . Calvary and the crucifixion was made the more overwhelming. Concussion be tween the United States and Mexico and a vast area of country becomes ours. Concussion between England and France and most of this continent west of the Mis-

sissippi becomes the property of the American Union. Concussion between iceburg and iceburg, between bowlder and bowlder, and a thousand concussions put this world into shape for man's residence. Concussion between David and his enemies, and out came the Psalms which otherwise would never have been written. Concussion between God's will and man's will, and, ours overthrown, we are now creatures in Jesus Christ. Concussion of misfortune and trial for many of the good, and out comes their especial consecration. Do not, therefore, be frightened when you see the great upheavals, the great agitations, the great earthquakes, whether among the rocks or among the nations or in individual experience. Out of them God

nificent consequences. Hear the crash all round the Lord's sarcophagus and see the glorious reanimation of its deal inhabitant. Concussion! If ever e al European war, which the world een expecting for the last twenty houl! come, a con u sion so wide on us ion so tre aga ... would not

leave a throne in Europe standing as it now is. The nations of the earth are tired of having their Kings born to them, and they would after awhile elect their Kings, and there would be an Italian republic and a German republic and a Russian republic and an Austrian republic, and out of the cracks and crevices and chasms of that concussion would come resurrection for all Europe. Stagnation is deathful; concus-

Notice also what the angel did with the stone after he had rolled it away from the mouth of the Savior's mausoleum. The book says he rolled the stone from the door and sat upon it. All of us ministers have preached a sermon about the angel rolling away the stone, but we did not remark upon the sublime fact that he sat upon it. Why? Certainly not because he was tired. The angels are a fatigueless race, and that one could have shouldered every rock around the tomb and carried it away and not been besweated. He sat upon it I

You can count upon fingers of your one hand all the great gers, great orators, great poets, great iots, and great Christians who never ta struggle. The angel that 'made a ne of the bowlder at Christ's tomb went back to heaven, and I warrant that, bing born in heaven and always had an a y time, he now speaks of that wrestle with the rock as the most interesting chapor in all his angelic lifetime. Oh, men and wan n with obstacles in the way, I tell you hat those obsta les are only thrones that a may after awhile sit on. Is the obtacle in yor way sickness? uer it by being happy in the companionhip of your Lord and master, who in all His life owned but 62 cents, and that He g t from a fish's mouth and immediately paid it all out in taxes to the Roman assessor, and who would have been buried in a potter's field had not Joseph of Arimathea contributed a place, for He who had not where to lay His head during His life had a borrowed pillow for the last el mber. There is no throne that you are sure to keep except that which you make out of vanquished obstacles. An ungrateful republic at the ballot-box lenied Horace Greeley the highest place at the national capital, but could not keep him from rising from the steps of a New York printing office on which he sat one chilly morning waiting for the boss printer to come that he might get a job until he mounted the highest throne of American journalism. He rolled back the stone and sat upon it. A poor orphan boy, picking up chips at Richmond, Va., accosted by a passing sea captain and invited to come on board his vessel, drops the chips and starts right away and is tossed from port to port, and, homeless and riendless, wanders one day along Tremont street, Boston, and sees Park Street church

Pretty soon he unfurled the mainsail, ran up the pennants to free breeze and I tell you the gospel ship never sailed more prosperously. The salt spray flew in every direction, but more especially did it run down my cheeks. Satan had to strike sail, his guns were dismounted or text bring hands full and arms full of spiked, his various crafts by which he led sinners captive were all beached, and the captain of the Lord's host rode forth, conquering and to conquer." Before that sailor boy was poverty, but he conquered it; and orphanage, but he conquered it; and ignorance, but he conquered it; and the scoff of the world, but he conquered it; and he rose till every sailors' bethel in the world blessed him and great anniversary platforms invited him, Daniel Webster and Charles Dickens and Frederika Bremer and poets and orators and senators sat electrified at his feet, and his gospelizing influence will go on until the last jack tar is converted and the sea shall give up its dead. All the obstacles of his life seemed gathered into one great bowlder, but Edward T. Taylor, the world-renowned sailors' preacher, rolled back the stone

and sat upon it.

Yet do not make the mistake that many aromatics I bring the fact that there are It is bound to go if you only tug away at it. If not before, then I think about 12 o'clock noon of resurrection day you will see something worth seeing. The general impression is that the resurrection will take place in the morning. The ascent to the skies will hardly occur immediately. It will take some hours to form the procession skyward and we all want to take a look at this world before we leave it forever and see the surroundings of the couch where our bodies have long been sleeping. On that Easter morning the marble whether it lay flat upon your grave or stood up in monument, will have to be jostled and shaken and rolled aside by he is well to-dey. After the usual opening formalities, a large number of motions were heard by church parlors this afternoon and eventhe court, several of them being motions to dismiss appeals, several others being three o'clock for the sale of articles in to set certain cases for trial on certain days. This afternoon the drawing and swear-

ing in of a jury was taken up. The list of jurors for the present term has been already published, but of that number Messrs. Z. Martin, J. B. Dunbar, E. F. Vanderlin, Carl Risen and William H. Pomercy were excused for the term Several others were excused for shorter times. To serve as la juror one must be either a nativeborn citizen or have taken out all necessary papers to become a citizen. When the question relating to this matter was asked, several promnent citrzens of Rock county, found to their surprise that they were not full fledged citizens after all. One old gentleman, whose hair many winters has made snow white, said he guessed he must be a citizen as he had been voting for about forty years.

That may be, responded Judge Bennett, but I think voting illegally. The court was still engaged in qualifying the jury at three o'clock.

MARSHAL HOGAN CAPTURES THE MAN WHO BROKE INTO BURNS' SHOP OVER A YEAR

On the night of February 3d, 1888, the shop of James Burns was broken into and tools to the value of about twenty. tive dollars taken. The officers got a clue of the man at

but the bird hand flown. The tools however, were captured and brought back to Janesville. No more was thought about the matter till this morning, when Conductor C. J. Mahoney telegraphed to Marshal Hogan that he wantel to see him at the depot. The marshal went to the depot at once and found Mr. Mahoney in his caboose having just arrived from the north. He told Hogan that a man had got on his train at Milton and that he believed it was the fellow that stole Burns' tools a year ago last Feb-

tools. He gave his name as Arthur West. He was arrested and taken before Judge Patterson charged with burglary. As soon as he saw that it was a serious matter he plead guilty and will receive his sentence this afternoon. He admitted that he stole the tools he had with him when he was arrested, in Wankesha and a telephone dispatch from that place sonfirmed the statement that they were stolen from Michael Cahill, a blacksmith in Wankesha. Justice has been some time in overtaking West but it seems to have a tight grip on him now.

Terrible Forewarnings. Cough in the morning, hurried or dificult breathing, raising phlegm, tightness in the cheet, quickened pulse, chilliness in the evening or sweats at night, all or any of these things are the first stages of consumption.
